DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/5/2007 has been entered.

Claims 1-6 and 9-17 are pending. Of which applicants have withdrawn claims 11-17 in response dated 11/6/2006 in response to 112 rejections of these claims. If the remaining claims were found allowable, these withdrawn claims need to be cancelled explicitly.

In view of applicants response, all 112 rejection and 102 rejection made in the previous office action have been obviated. However, the following apply to currently pending claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6, 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Regarding claim 1, the phrase "preferably" renders claim 1 and its dependent claims 2-6, 9 and 10 indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d). See definition of R⁸ and R⁹.

2. Claim 10 recites a variable R³ but such a variable is not defined in claim 1. Hence, claim 10 is an improper dependent claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3 and 9 are rejected under 35 U.S.C. 102(e) as being anticipated by WO 2003037891 (Publication Date 20030508, filed 20021029, equivalent US 2005004125.

See compound shown in page 3 of US 2005004125, paragraph 0062.

Allowable Subject Matter

Claim 11 is allowed.
